Description

Standard Polarity 12V 1.0A (1000mA) Class 2 Battery Trickle Charger with alligator clips. These UL certified chargers are ideal for charging

1 / 2

conventional powersport batteries such as the GT5L-BS, GT7L-BS, GT9L-BS, GT12L-BS, GT14L-BS, GT20L-BS models as well as many others. They are 12 Volt, 2 Amp capacity which is the optimal charger rating for North American trickle chargers, providing a prime balance between charging speed and potency. Trickle chargers higher than 2 Amp are not recommended for use with the standard battery configuration as the elevated amperage can cause battery attrition over time.

• Voltage: 12V

Amperage: 1A (1000mA)
Polarity: Standard
Connector: Alligator
Application: Trickle Charger
